

Youth Worker

Position Description

About Real

“We believe that by supporting young people in a way that recognises their uniqueness, fewer will go on to need adult mental health and addiction services later in their lives. We believe that everyone can shape their own future and live well.”

Creating wellness and wellbeing

The focus of Real is about loving life. Young people want to experience wellbeing in all aspects of their lives. Real is focused on helping young people build confidence, resilience and wellbeing.

The positive power of friendship

Real services include components of young people helping others, focus on including the friends of young people using services and support people to build and maintain positive relationships with their friends.

Young people have mana

Real recognises the needs for services to be developed specifically for the changing needs of young people. Service development will understand and respond to the ‘worlds’ that young people inhabit (school, community, job seeking, social, whānau etc) and will focus on supporting a young person’s active participation in these worlds. Real respects that young people can take charge of their own lives and futures.

Fun, creative and hopeful

Real is vibrant and personalised – it responds to the uniqueness of the young people it supports.

The importance of family, whānau and community connections

Real supports and strengthens families and whānau connections. Real works collaboratively with all aspects of the social and education sectors that young people and their families have contact with. Real is part of young people’s communities and will be visible in their environments (schools, community spaces, online spaces).

Keeping it real

Real is honest and transparent with young people. The language used is understandable, the decisions made occur with consultation and communication, the ease of access and re-access is simple. Real is easy for people to understand and is a relaxing experience of service provision.

Young people can realise their own potential

Real has a preventative focus. Real strives to enable young people to live their lives well without the ongoing need for adult mental health services. Responding to trauma, supporting social connections and healthy development, growing confidence and strengthening familial and social bonds will result in young people pro-actively taking charge of their lives and their wellbeing.

The Real service is supported by Pathways Health Limited, part of the Wise Group.

The Wise Group is a family of charitable companies and is one of the largest providers in the New Zealand mental health sector. Our work spans across health and wellbeing services, education and training, software development, philanthropy and employment.

Working together means the entities in the Wise Group can work collaboratively – sharing knowledge and expertise to create fresh possibilities for the wellbeing of people and communities.

Pathways is the founding member of the Wise Group. Pathways was formed in 1989 by a group of community organisations and individuals concerned about the homelessness of people in the Waikato with mental illness. Pathways is registered as a charitable company.

With the recognition that people do recover and their needs change, Pathways has continued to evolve and develop a wide range of innovative support choices, looking for inspiration from people using Pathways' services, employees and families, and to examples of best practice elsewhere in New Zealand and internationally.

Today Pathways provides mental health and wellness choices in regions around New Zealand and is one of the largest mental health service providers in the country. The face of mental health services in New Zealand today is vibrant and exciting, and Pathways' journey is far from over.
